

Accelerated Oracle Discoverer Migration

ennSight™ Self-service reporting in 10 weeks or less

Automated, Accelerated Discoverer Migration

Since its inception, Oracle Discoverer has been the BI and operational reporting tool of choice for numerous organizations. As we lift and shift to a new standard, it is imperative to not only select the right replacement, but the most effective and secure way to migrate and extend your Discoverer business history.

ennVee **ennSight™** automates and accelerates the Discoverer migration process to reduce the total cost and timeline by 50%. Our team handles the process to minimize disruptions and ensure rapid, secure migration of all Discoverer elements to numerous BI and operational reporting tools.

With ennSight, you can

- Automatically migrate all Discoverer reports "AS-IS" in 10 weeks or less
- Consolidate duplicate workbooks and worksheets
- Sun set outdated reports
- Migrate all security, user, and report owner information
- Utilize a fully-integrated report migration environment
- Extract complete information and prepare specific data sets
- Ensure data is always up-to-date after migration
- Integrate with business collaboration tools (SharePoint, Oracle Portal, Web Portal)

As a result, you will

- Migrate 50% faster and more cost-effective through automation and fixed-bid pricing (based on the number and complexity of reports)
- Save time and eliminate re-work
- Minimize disruptions and re-work before, during, and after the migration
- Realize ROI immediately
- Ensure business continuity on reporting
