

# Oracle Discoverer Migration to Power BI

## Key Features

- Automated "as-is" migration
- Zero rebuild required
- Simple "drag-and-drop" interface
- Workbook consolidation
- SharePoint integration
- Sunset reports
- Accepts multiple data sources
- Extract complete information and prepare specific data sets
- Universal Discoverer version compatibility
- Fully-integrated report migration environment
- Identify users via active directory

## Value Added Services

- Impact Analysis
- Post Migration Support
- Enhancements & Improvements
- Best Practices
- New Functionalities & Capabilities
- End User Training

## Oracle Discontinues Support After June 2017

Since its 1998 inception, companies have come to know Oracle Discoverer as the business intelligence reporting tool of choice largely based on its intuitiveness, usability, and being pre-packaged with early Oracle E-Business Suite releases. After June 30, 2017, Oracle will officially de-support and retire Discoverer. While it will receive Sustaining Support, this excludes any new critical security, patch, fixes, legal, regulatory, or tax updates, upgrade scripts, and certifications with newer Oracle product releases.

## Non-stop Migration in 2-8 weeks

ennVee's migration accelerator helps companies extend the lucrative investments made in Discoverer by automatically migrating all reports, workbooks, and objects into Microsoft's Cloud or Desktop-based BI platform, Power BI. The process is automated entirely to ensure rapid, error-free migration with zero report rebuild required. We also provide an impact analysis, post-migration support, enhancements and improvements, and training so users can start building dashboards immediately.

Total BAs	Total Folder	Total Workbooks
27	168	199
BAs Name	Folder Name	WorkBook Name

## Migrate all worksheets and objects

- Reports
- Infrastructure
- Folders
- Calculations
- Filters
- Conditions
- Joins
- Classes
- Hierarchies
- Business Rules
- Workbooks
- Sheets
- Security
- Roles

## What's in it for me?

1. **Convenience:** our team will migrate everything in 2-8 weeks, enabling your internal resources to focus more on strategic projects and initiatives.
2. **Time and Cost Savings:** automation reduces the time and manual effort required to migrate, which minimizes potential downtime and disruptions to business.
3. **Maximize your ROI:** empower users with choice access to information at zero loss of IP.

ennVee is backed by over 15 years of delivering optimal enterprise resource planning and custom developed solutions. Our global team is comprised of over 200 technology gurus dedicated to delivering optimal IT industry specific solutions. ennVee is based in Naperville, Illinois and has four worldwide development centers throughout North America and APAC.
