

ennAssist R12 Upgrade Tool

Simplify Oracle EBS 11i to R12.x upgrades

R12 upgrade challenges

Oracle E-Business Suite R12 upgrades are always a challenge, often taking longer and costing more than expected, because of all the uncertainties involved.

PLANNING

Mapping all your system customizations, figuring out what will break when you upgrade, and what you need to test can be complicated.

FIXING & TESTING

Fixing all the code issues introduced by the upgrade is extremely labor intensive. Determining which functionality is impacted by the upgrade so that you may focus your testing efforts is also a daunting task. The ennAssist tool uses a simulation engine that tells you what will break and how to fix your custom code.

Why upgrade with ennAssist?

AUTOMATION

ennAssist's Upgrade Automation Software-as-a-Service solution takes out the guesswork and eliminates 70% of the effort and risk associated with Oracle EBS R12 upgrades, meaning that your project gets done in less time, with significantly less risk.

FUNCTIONALITY & SPECIFICATIONS

ennAssist maps all your system customizations, as well as provides usage statistics for all custom and standard objects. This upgrade shows you exactly what will break and how to fix it, tells you what needs to be tested based on order of priority, and finally leverage our crowd sourced best practices.

Business drivers

BUSINESS OPPORTUNITY

Figuring out what custom code to carry over when approaching an EBS R12 upgrade, what code will break and how to fix it is a labor-intensive and costly effort, with not much business value behind it. ennAssist automates this entire effort, making upgrades easier, faster and cost-effective. Oracle EBS upgrades are a lot easier, faster and cost-effective with ennAssist.

RETURN ON INVESTMENT

ennAssist automates this entire effort, making upgrades easier, faster and cost-effective.

COMPETITIVE ADVANTAGE

ennAssist's cloud-based supercomputer is the backbone of ennAssist's software-as-a-service solution. Our run-time simulation engines run your custom code on Oracle EBS R12 and allow us to show you what will break, how to fix it, and what to test. A project management application is provided so that you may control and monitor the upgrade project.

WE GUARANTEE

NO HARDWARE

NO SOFTWARE

NON INVASIVE

Contact us to automate your next upgrade or to fix an existing one.

ennVee is backed by over 15 years of delivering optimal ERP and custom developed solutions. Our seasoned technologists are committed to delivering quality solutions to customers across a myriad of industries.
