Automatically Replace Discoverer in 10 Weeks or Less

Migrating from Oracle Discoverer is highly-manual and can require a time commitment ranging from a few months to a few years. ennVee's proprietary ennSight tool helps companies simplify the migration process through automation.

ennSight ensures a swift and cost-effective migration from Discoverer to your target platform of choice in 2-10 weeks. Through automation, we help you identify the number and complexity of your Discoverer reports, before extracting and migrating each report to your target platform of choice. Users can also add additional fields to each report, and pick and choose what to migrate, retire, or consolidate.
