

Microsoft .NET

Global Microsoft Practice: .NET

ennVee's Dot Net practice has worked closely with the .NET platform and Visual Studio .NET from its inception. Since our formation, the ennVee Dot Net practice has become a refined machine adept at:

- Requirements analysis and solutions recommendations
- Architecting .NET solutions to meet current and future requirements
- Building optimal and cost-effective .NET solutions that offer measurable ROI
- Migrating existing applications to .NET with minimal downtime
- Integrating new functionalities or extending that of existing applications
- Training development teams on .NET technologies and providing valuable consultancy and best practices
- Supporting and maintaining mission-critical applications

Core Capabilities

INTEGRATION & CUSTOMIZATION

Developing integrated applications on top of Microsoft .NET Frameworks.

ARCHITECTURE DESIGN & PLANNING

Creating scalable infrastructure, platform and application architectures for your solution.

CUSTOM APPLICATION DEVELOPMENT

.NET custom development using Visual Studio, C#, ASP.NET and .NET Framework.

INTEGRATION STRATEGY & DEPLOYMENT

Custom and middleware based solutions for integration with back office, legacy, other web applications and web services.

SECURITY

Securing your platform and applications with hardware, product, services and guidance around your security requirements.

MAINTENANCE & CONTINUAL SUPPORT

24x7 monitoring and support for your applications from our dedicated on-shore facilities, a hybrid on-shore/off-shore model, or entirely supported by our offshore technology centers in Chennai and Bangalore, India.
