

DATA SHEET

Microsoft .NET Development Services

Development, Integration, Architecture, Security, Maintenance & Support

.NET CUSTOM DEVELOPMENT PRACTICE

Since 2003, ennVee has worked closely with the .NET platform and Visual Studio .NET from its inception. Our core .NET focus areas include:

- Requirements analysis and solutions recommendations
- Architecting .NET solutions to meet current and future requirements
- Building optimal and cost-effective .NET solutions that offer measurable ROI
- Migrating existing applications to .NET with minimal downtime
- Integrating new functionalities or extending that of existing applications
- .NET development team training and providing valuable consulting and industry best practices
- Supporting and maintaining mission-critical applications

Core .NET Offering

Integration & Customization

Developing integrated applications on top of Microsoft .NET Frameworks.

Architecture Design & Planning

Creating scalable infrastructure, platform and application architectures for your solution.

Custom Application Development

.NET custom development using Visual Studio, C#, ASP.NET and .NET Framework.

Integration Strategy & Deployment

Custom and middleware based solutions for integration with back office, legacy, other web applications and web services.

Security

Securing your platform and applications with hardware, product, services and guidance around your security requirements.

Maintenance & Ongoing Support

24x7x365 monitoring and support for .NET and Microsoft applications from our dedicated on-shore facilities, a hybrid on-shore/off-shore model, or supported by our offshore development centers in India.

OUR EXPERTISE

- Mobile & Web Application Development
- Functional & Technical Consulting
- Training
- Document Management & Imaging
- Workflow & Business Process Management
- Mainframe Conversion Projects
