

## DATA SHEET

# Oracle Middleware Consulting & Solutions

Oracle SOA, Identity, &amp; Access Management Solutions

## OVERVIEW

Your organization needs to remain productive, while being able to extend existing or create new business processes. Deliver both predictability and responsiveness. ennVee's Oracle SOA-based solutions help customers do more with less by cost-effectively extending business processes, and delivering predictability, responsiveness, and agility.

We extend business processes by aligning enterprise IT architecture with your business objectives to create optimum and agile business processes. Using Oracle Fusion, we help you leverage more effectively your existing investment in Oracle to pursue or refine your current Fusion Architecture.

### Seasoned Middleware Consulting Experts

Since 2003, our team's involvement in numerous SOA implementations has resulted in first-class best practice to the design, development and implementation of Oracle SOA Suite. Utilizing both hands-on experience and industry best practices, we provide exceptional guidance in assessing any SOA solution, whether already implemented or still in the planning phases.

We employ a hybrid delivery model that utilizes a blend of on-site and off-shore resources, and can effectively deliver your integration projects on time and under budget.

## Identity & Access Management

Our innovative anomaly detection transition security provides the ideal:

- End-to-end authentication and SSO services for fine-grained application protection
- Authentication
- Single Sign-On
- Federation
- Fraud Prevention
- Authorization and Entitlements
- Web Services Security
- Secure Token Services

## IDM & OAM Implementation Services

Our implementation services are meant to be flexible and based on your business preferences. We can deliver rapid Oracle IDM implementations on-site or offshore.

- Oracle Access Management (OAM)
- Oracle Identity Manager (OIM)
- Oracle Internet Directory (OID)
- Oracle Virtual Directory (OVD)
- Oracle Unified Directory (OUD)
- Oracle Identity Federation (OIF)
- Oracle Adaptive Access Manager (OAAM)
- Oracle Identity Analytics (OIA)
- Oracle Entitlements Server (OES)
