

# IT Health Check Assessment Services

How do I maximize my investment in Oracle E-Business Suite or Fusion Applications?

Have I realized my overall business objectives?

Are my applications cut to run my business effectively, or are they impeding efficiency?

ennVee's health check services safeguard the longevity of your Oracle ERP investments, while ensuring all components are in place before expanding your Oracle footprint.

We take a holistic approach to develop a strategy to extract the maximum ROI from your Oracle E-Business Suite investment. Scalable down to a single business function, our proven process delivers value to your organization in a very short time frame. Our team's collective experience and knowledge base ensures productivity from day one. Our proven methodology provides a supplementary analysis that you might not have considered previously.

## Business Benefits

- Alignment of business strategy and enabling technologies
- Streamlined end-to-end business processes
- Optimized application configurations
- Increased end-user satisfaction and confidence
- Baseline for appropriate configuration management
- Optimized licensing and support requirements for Oracle Applications
